

# Trim Acoustics

## Acoustic Absorber

Heradesign's Ceiling Division is a Business Unit of Knauf Insulation GmbH, Fuernitz, Austria and the market leader for acoustically efficient, decorative ceiling systems made of wood wool. The Heradesign decorative panels are manufactured at the Ferndorf facility, Austria, and supplied to more than 30 markets all over the world.

What does Heradesign stand for?

Best combination: ecology & design

People's demand for liveable, positive, and sustainable surroundings is greater than ever. Architects, planners and builders around the world must face up to this challenge.

Our mission is to make the best possible contribution to this, and to put products into the hands of architects and planners that make it possible for them to meet this challenge.

The Heradesign product range is based on the well known acoustic panels. It is organised into the two product lines called Trend and Executive and organised into 1-layer, 2-layer and 3-layer decorative panels. In the future, good acoustics can be used visibly and invisibly

### "Trend" product line

1-layer decorative panels

Heradesign® superfine  
Heradesign® fine  
Heradesign® micro
