

Classmate

Classmate is a range of effective acoustic wall insulation products designed to improve the quality of concentration levels by reducing negative acoustic noise.....

Classmate is constructed from polyester fibres thermally bonded in a non-woven matrix and laminated to a high density non woven polyester backing

Benefits

- * Excellent Acoustic Absorption
- * Reduces reverberated noise by up to 40%
- * Pin, Staple and Velcro Friendly
- * Fade Resistant
- * Stain Resistant
- * Non-Toxic & Environmentally Friendly
- * Will not absorb moisture

Fibre

Manufactured Thickness	10-12mm
Product Weight	Typically 1600 g/m ²
Roll Width	1220mm
Roll Length	25 Metres
Tile Size	600mm x 600mm
Tile Pack	10 Tiles (3.6 sq. mtrs)
Colours	11

Available in 11 Colours
