

ESSENTIAL COMPONENTS

Product Description

'Like Lead' 7kg Barrier Mat is a vinyl sound barrier mat loaded with naturally occurring minerals and makes an excellent lead substitute. Designed to improve airborne sound insulation at all frequencies, the flexibility of this product means the uses for it are almost endless.

Facts & Figures

It can be incorporated into walls and ceiling as part of acoustic treatment as well as being used to increase the density of metal, wood and plastic panels for all types of enclosures, also ideal for wrapping or enclosing service pipes to reduce water noise.

'Like Lead' is ideal for installations where achieving acceptable airborne performance may be in doubt, a layer of 'Like Lead' may provide the additional peace of mind before a sound test. 'Like Lead' makes a good barrier over old floorboards. Easy to lay, seals all gaps and increases airborne performance.

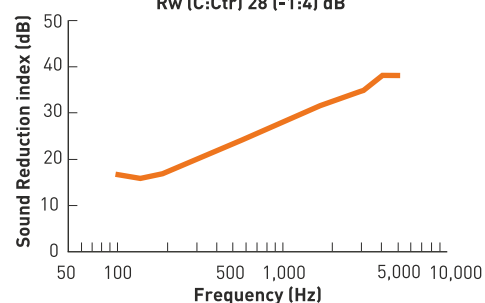

System Components

Overall Dimensions	3m x 1.25m x 3mm thick (3.75m ²)
High Density Polymeric Barrier Mat	
Weight	7kgm ² (26.25kg per roll)

Flammability: FMVSS 302 Self-Extinguishing

*Materials are normally made to weight tolerances
ACOUSTIC PERFORMANCE: Typical curve for 7.5Kg m⁻² barrier
 Mean Sound Reduction Index: 28 Db

Sound Reduction Index, Revac 7.5kg/m²
 BS EN ISO 10140-2 Free Hanging Curtain
 Rw (C:Ctr) 28 (-1:4) dB
