

ACOUSTIC UNDERLAY SYSTEMS

Product Description

Trim Acoustics Soundshield is a High Performance Acoustic Underlay System, which is ideal for reducing impact noise on both concrete and timber floors. This system can be easily fitted and provides the perfect base for both laminate and hardwood floors.

Soundshield 5 high performance Impact

Impact

Product	ΔL_w (dB)
Soundshield 5	27

CHARACTERISTIC	RESULT
Roll Width	1.37m
Roll Length	11.00m
M ² per roll	15.07m ²
Gauge	5mm
Weight M ²	ca.2.00kg/m ²
Roll Weight	ca.30kgs

CHARACTERISTIC	RESULT
Work of compression after dynamic loading	59J/m ²
Retention of work of compression	98%
Compression after dynamic loading	2.0mm
Thickness loss after dynamic loading	6.5%
Thickness loss after static loading	4.2%
